

*Want to work towards a  
better planet?*  
**Join us in Scotland!**

*Learning modules 28-29 & 30-31 October 2019*

# FUNGI SCIENCE LEARNING

**GLIMPS**

**You will learn about:**

Available and unutilised  
feedstock

Smart feedstock collection

Spawn and mushroom  
strains recipes

Fungi smart farming

Fungi nutritional values

Fungi as medicine

Mycelium as a valuable  
by-product

Biomaterials from fungi

**First European fungi open lab.**

**Healthy soil, food, medicine, and  
biomaterials from wasted  
resources.**

**Workshop for sustainable and  
circular economy innovation.**

**Contributing to future solutions for  
climate emergency.**

## **MODULE A Fungi growing**

**28-29 October 2019**

*Two-day module on mushroom  
cultivation for low-tech, small  
business and small-medium  
scale methods for producing  
food, health and ecosystem  
restoration.*

## **MODULE B Biomaterials**

**30-31 October 2019**

*Two-day module, hands-on  
applied fungi biomaterial  
prototyping techniques.  
Testing reused designs and  
scaling up manufacturing.*
